## ECONOMY

Firms entering the Mozambican market with their own intellectual property (IP) should consult local legal services providers on how to safeguard their IP. In any foreign market, companies should consider several general principles for effective protection of their intellectual property.

### Intellectual Property

**Currency**  
Metical

**VAT Rate**  
16%

**GDP per capita**

\$590

**GDP growth**

2.3%

**Consumer Price Index** 182.32

**Adjusted net national income per capita** 382

To pay for imports, Mozambican firms need to justify their payment to the Bank of Mozambique and obtain authorization to make foreign payments. This is a common practice, but can be lengthy and cause the importer to take more time to process payments.

### Payment Terms

### Joint Ventures

With the goal of developing entrepreneurship, joint ventures with Mozambican companies are encouraged by the Government of Mozambique. Though there is no legal requirement to partner with a local entity in order to establish a company, the Government often requires partnerships with parastatals when a company bids for national projects or concessions.
